

How it works:

1

Browse through our garments and choose the items you would like to make. Think about customisation, including colours, prints, branding and trims.

2

Fill out our Design Catalogue Order Form on our website or email us directly for an order form.

3

We will then send you a confirmation email of your order and mock-up of your garments to make sure you're happy with the style and customisation. We can also send you samples to see the fit and fabric.

4

An invoice will be sent to you. 50% deposit is needed before the garments are manufactured. The other 50% is paid when they have been made, ready for delivery.

5

The final stage is your items delivered straight to your door, packaged in our free recycled poly bags.
